

Music : Blind Thom Ballad

Martin's arpeggione is a 5-stringed musical instrument fretted like a guitar.
It looks like a cello with a curved bridge / strings setting so it can be bowed.
It is tuned like the bass viola da gamba G C E A D.

All these events gave me an incredible expertise.

from analyzing the symptoms of a disease

to observing the body healing processes.

I have developed an ability to exchange with physicians.

I have spent ages searching academic databases on medicine.

I, eventually, became an expert and a trainer in hospitals.

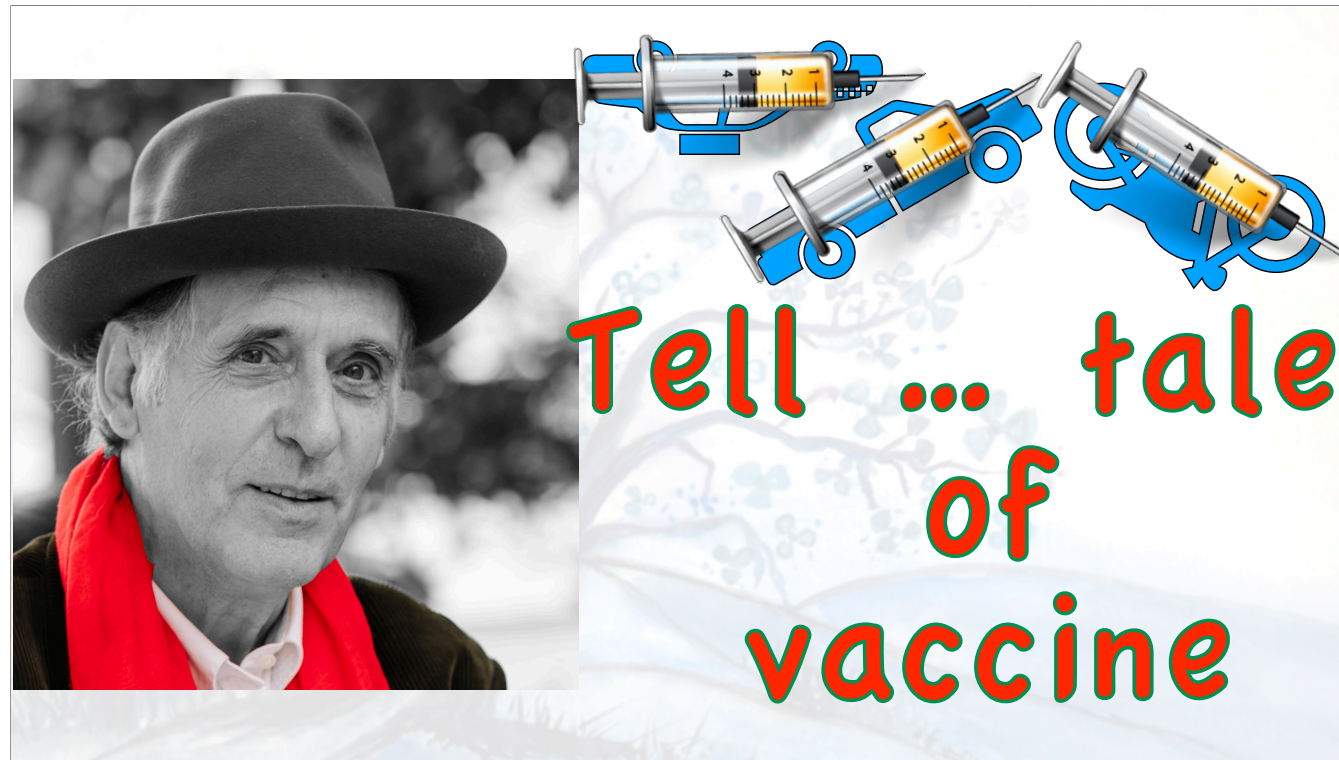

But today I am only a witness.

Only a telltale.

I tell you the uplifting tale of Martin.

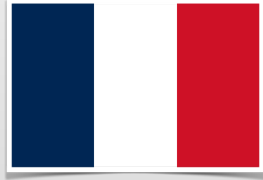

I tell the tale of Martin with a vaccine

A typical French tale as we shall see.

This happened when I was a kid.

2 vaccine induced health disorders

I get two induced health disorders

Narcolepsy

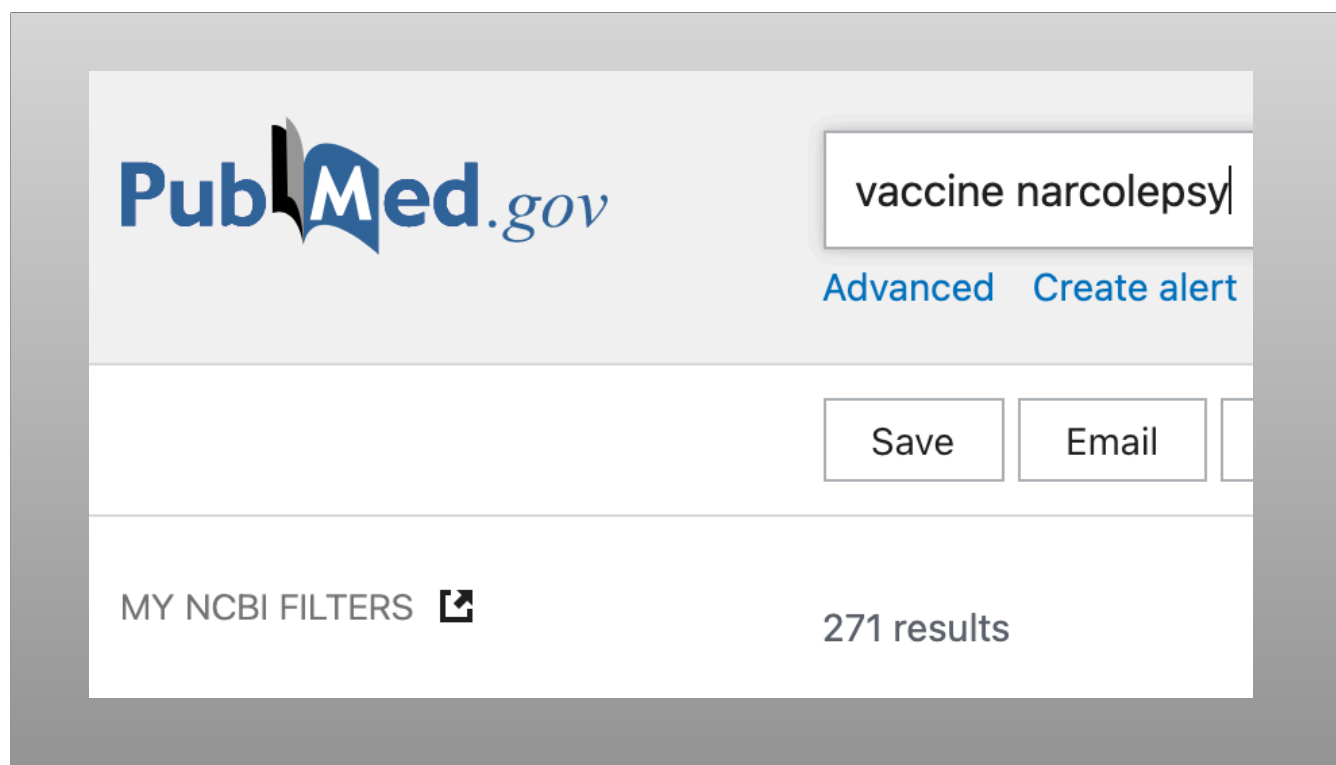

Narcolepsy disorder is an overwhelming need to sleep at any time, in any place, under any circumstances.

Vaccine

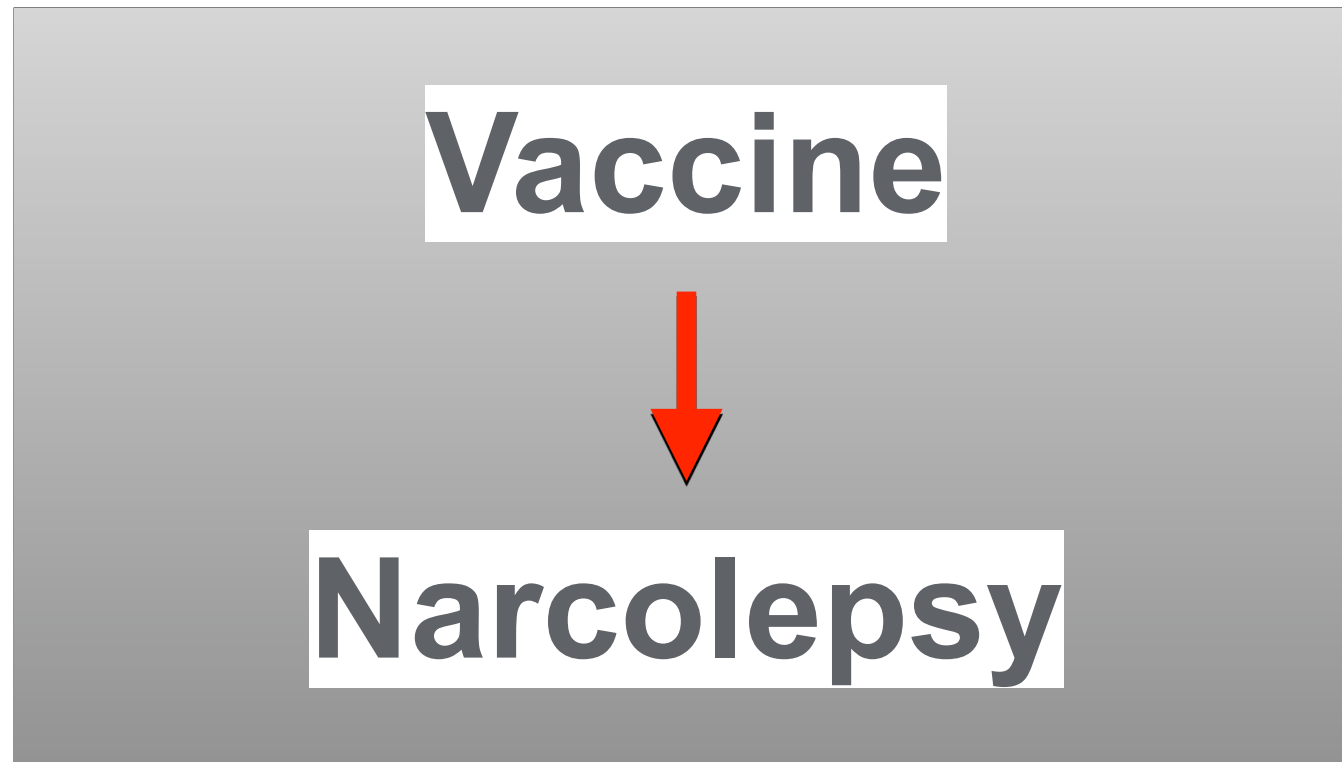

?

Narcolepsy

Is there knowledge about the link between vaccine and narcolepsy ?

Yes ! A simple query proposes 2 71 academic papers on the matter !!!

Vaccine is the cause of a narcoleptic disorder in certain circumstances.

Diabetes

There are different kinds of diabetes some are mild others are more severe.

Vaccine

Diabetes

What about the possible link between vaccine and diabetes ?

The link from vaccine to diabetic disorder is found in different circumstances.

These two disorders happened to me after a vaccine.

Falling hard asleep during work time, club time, family time, etc. is a great social handicap.

These two disorders led me to be exempt from military service.

And to forget about being a normal student.

A black and white photograph of a man in a dark suit, white shirt, and patterned tie. He is wearing a black head strap device with a buckle. He is sitting in a chair with a striped backrest and holding a newspaper in front of his face. The photograph is set against a blue background.

Or ... you invent a way to tie your head.

From health disorder to accident, from accident to health disorder,

I became a professional invalid.

no-degree to PhD

During these 7 years, the travel led me from no-degree to a PhD.

In 2 015 - when I have an accident - my local physician and the hospital physician do the correct job.

In 2 017 Doctor Macron explains to the local physician how to do his job.

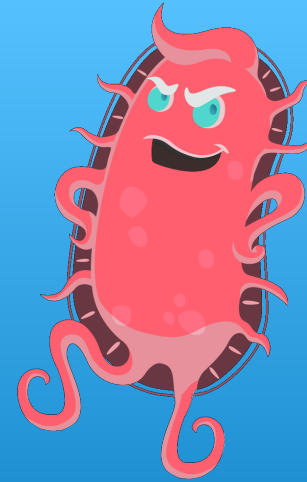

Doctor Macron explains to hospital physician how to do his job

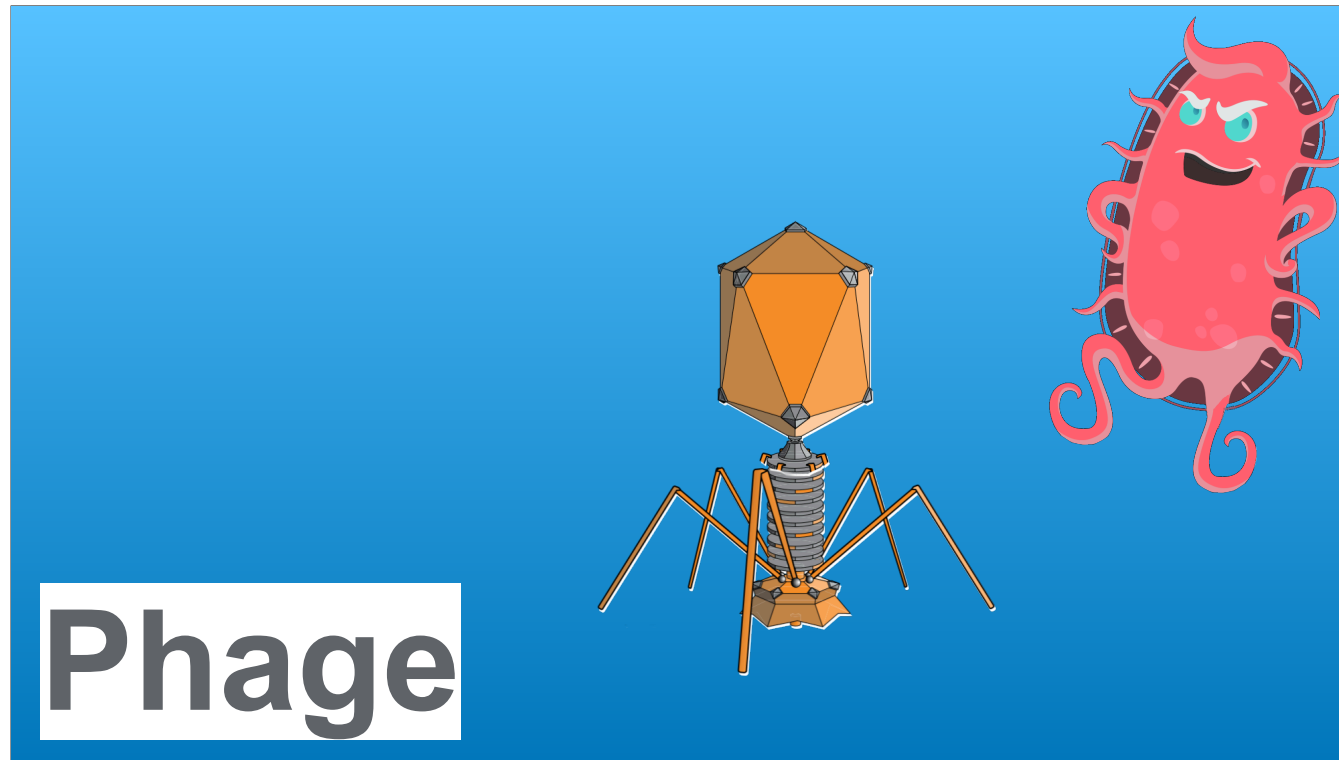

in 2 018 I have a big bug problem and I discover the medical talents of Doctor Macron.

**Official medecine

Official medicine is helpless in front of my bug problem.

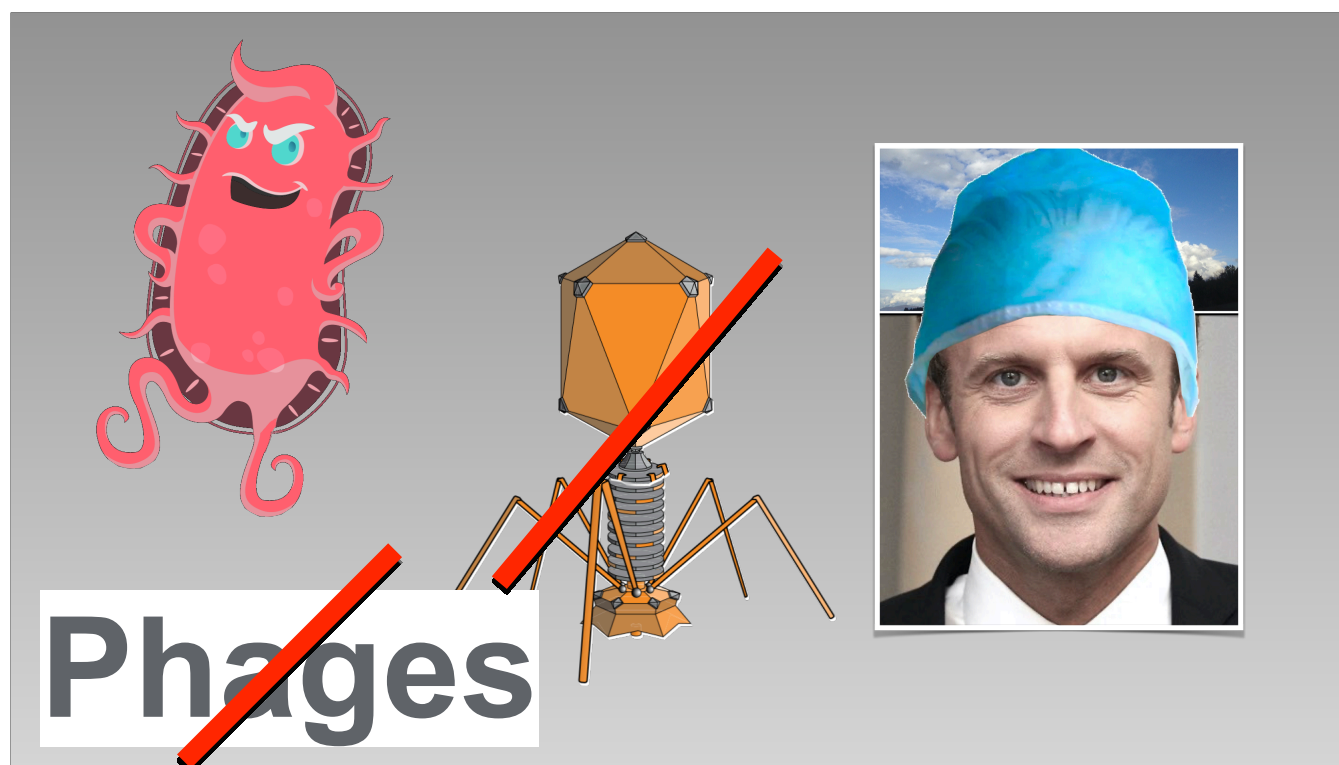

I discover that a phage is a bug killers.

I discover that phages are used in various countries in the world.

Phage therapy saves thousands of lives.

I discover that Doctor Macron doesn't like phages.
Without rational explanation of his opposition.

**all-powerful
all-knowing**

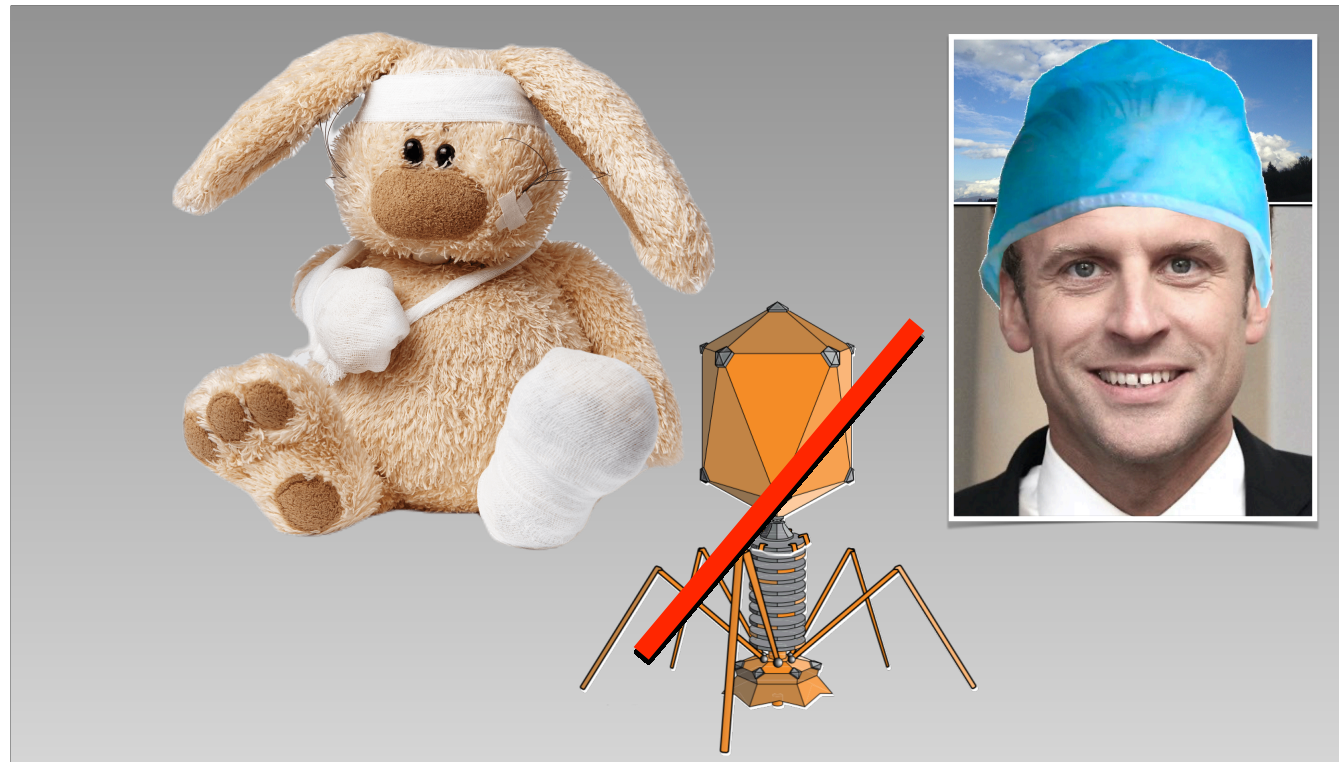

Incredible decision

I discover that the all-powerful and all-knowing Doctor Macron has taken an incredible decision.

When a patient is at risk of amputation by a dangerous bug,

The hospital physician cannot use phage therapy to save the patient.

wait the patient is rotten

The hospital physician must wait until the patient is rotten by the bugs

When the patient is rotten enough, then Doctor Macron feels compassion for.

rotten patient

compassionnel

So the phage therapy is used in a so called compassionnel mode.
And the meaning of it is awful : the patient must be rotten beforehand

With patients with severe burns they have done the same thing.

Phagoburn failure

And the Phagoburn phage experiment was a total failure !!!

In 20 18 the bug is going to destroy my kidneys.

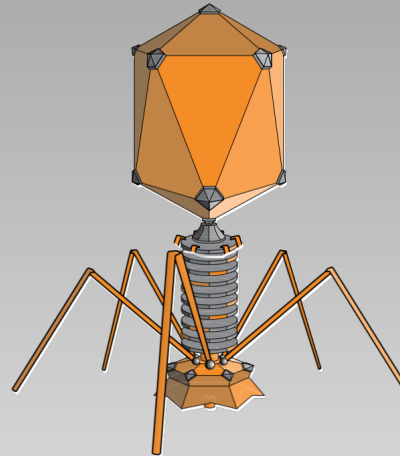

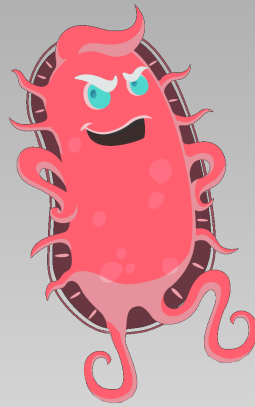

And Doctor Macron says : « Wait ! »

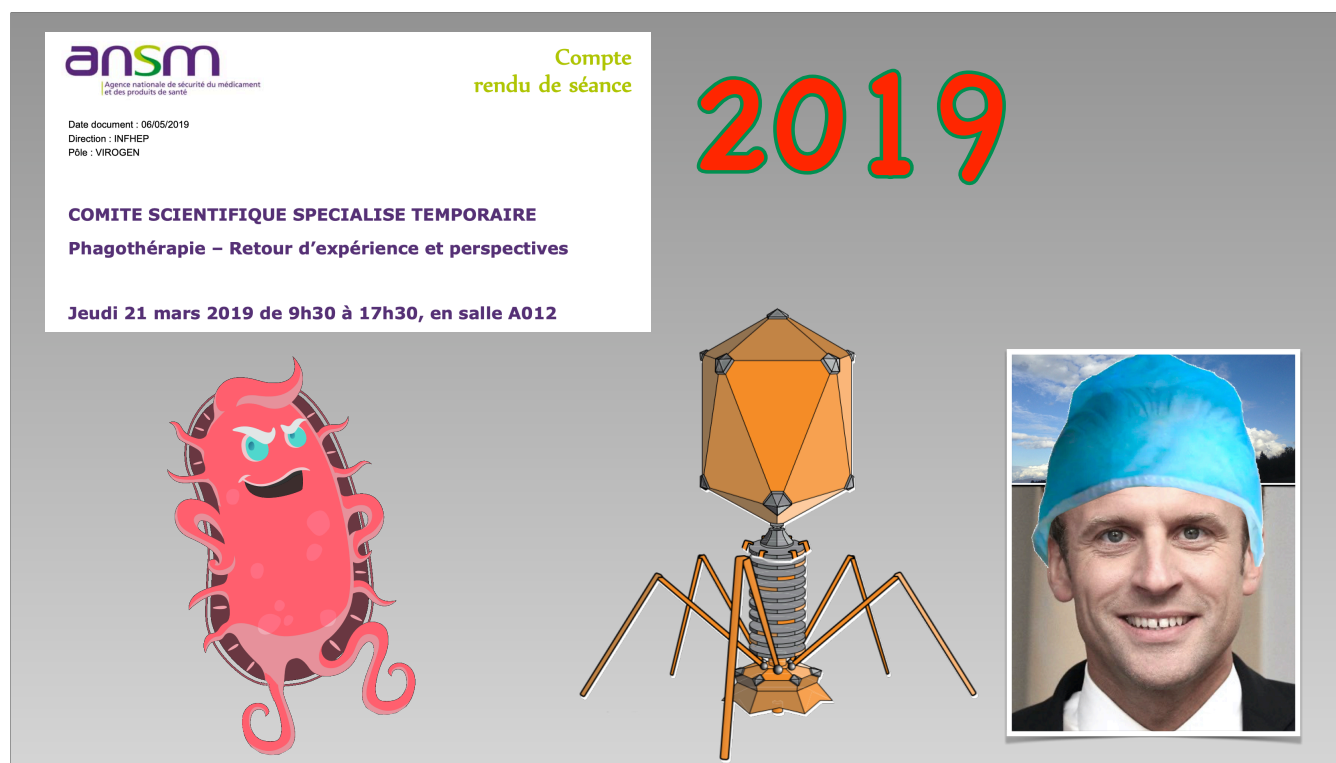

« When the kidneys of Martin will be rotten we shall take care of him ! »

**Very naturally,
you don't believe me !!!**

Of course, naturally, you don't believe me !

But here is the reference of the document about phage therapy.

In 2 019, it says exactly what I told.

The so called scientific committee was chosen because of his dislike of phage therapy.
And the committee has decided what Doctor Macron decided : no phage therapy against superbugs in France.

Let Martin be rotten !

Doctor Macron says : We let Martin be rotten to the bones.

rotten patients

In 2021, the decision is renewed !

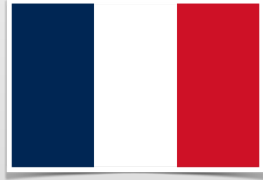

Only rotten patients can receive the phage therapy !

This means that Martin will die with his destroyed kidneys.

And Martin is very unhappy with Doctor Macron's decision.

Aromatherapy

Then Martin discovers that his kidneys can be saved by flowers, leaves and roots medicines.

Aromatherapy

But Doctor Macron doesn't like flowers, leaves and roots either.

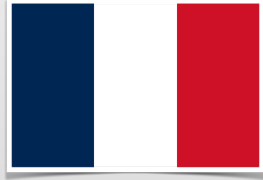

The same motto

Be rotten beforehand !

The motto is the same : Martin must be rotten before he can be cured by flowers, leaves and roots.
